Subject: Rapping About Prevention Show at Pittsburgh Beechwood

Thank you again for the wonderful presentation at our school yesterday. It was a captivating and educational performance. My students were so engaged. Even the students in my class who wouldn't get up and dance for a Dueling Pianos show we had in December, got up and exercised with you. You picked relevant music to dance to and that really motivated them. One of my girls said it was the best day ever at school. Another girl said she learned the most from this performance than any other performance at Beechwood.

Immediately following the show, I got feedback from the kids about the show. I asked what they like best about the show:

- > Aiden liked the dancing.
- > Saniyah liked the Let it Go singing.
- > Harmony liked when you said I sing like Taylor Swift.
- > Reeyas liked the Moon Walk.
- > Justin and Emily liked when you did the chair split.
- > Jayden liked the song compilation....especially the Harlem Shake and the YMCA.
- > Junior like when the two boys were rapping.
- > Noah like the guy who jumped off the stage.
- > Ethan like when everyone got to break dance.
- > Jaelynn liked how they were spinning on their heads.
- > Makkah liked the song Bobby Smurder and Nay Nay.
- > Kiyoshi liked the Shimmer.
- > Abraham liked when they played Gangnam style.

What kept it interesting was learning about eating healthy, showing us that getting up and dancing was exercising, your dancing and the backflips, and the raps.

Thank you for the show! We hope we get to see you in the future!
